# SOLEA®

**To Forever Change How People Think of the Dentist**

## THE SOLEA EXPERIENCE

Solea, a 9.3  $\mu\text{m}$  CO<sub>2</sub> laser, eliminates two of the primary causes of patient anxiety and inconvenience – the needle and the drill – and delivers a dental experience that patients want.

When needles, numbness, vibration, and the sound of the drill are removed from the experience, two important things happen: patients never settle for a traditional experience again, and they encourage their family and friends to experience the same.

## SOLEA PRACTICE TRANSFORMATION

### Increased Patient Flow

- Increased patient flow and decreased attrition
- No needles, numbness, vibration, drill sounds

### Better Clinical Outcomes

- Minimally invasive dentistry
- Rapid and predictable healing

### Increased Efficiency

- Anesthesia-free and blood-free procedures
- Same-day dentistry

### New Procedures

- Increased treatment acceptance
- Higher paying procedures and reduced referrals

*"With Solea, my new patient flow is up 300%! Patients travel across state lines just for Solea. It's the best thing I've done for my practice!"*

– Dr. Rene Kurtz

*"Solea makes my day easier. I complete procedures faster, practice multi-quadrant dentistry, and do more in a single visit. Life is better without anesthesia."*

– Dr. Matthew Wimmer

*"Solea changes what I do daily. It glides through gingiva with control and precision, allowing me to incorporate new soft tissue procedures into my practice. With this laser, I'm ultimately the best dentist I can be."*

– Dr. Christine Skordeles
